AmiCell® SMS

INTERNET CLIENT

🌐 www.amicell.co.za/productInternetClient.html

Simple, user-friendly software for basic SMS tasks like sending SMS messages and receiving replies.

- ✔ software
- ✔ easy to use
- ✔ affordable
- ✔ single user
- ✔ high-speed sending
- ✔ via Internet connection

OVERVIEW

The AmiCell® SMS Internet Client desktop software makes use of an Internet connection to send single and bulk SMS messages instantly. It is perfect if you need an affordable, high-speed and easy-to-use solution for your communication needs.

Since SMS sending is done via an Internet connection and sent through the AmiCell® SMS access point the Internet Client does not have a dedicated number. Recipients can only reply to messages sent from the Internet Client.

FEATURES

AmiCell® SMS Internet Client software features include:

- ✔ Bulk and Single SMS sending.
- ✔ Recipients can reply to SMS messages.
- ✔ SMS Scheduling for a future date and time.
- ✔ A Keyword Manager to organise keyword responses (e.g. YES, RSVP, UPDATE, etc.).
- ✔ Save pre-defined SMS messages as templates for easy access.
- ✔ Full sending history, error and reply reports (exportable to spreadsheet).
- ✔ Flexible and maintainable Address Book.
- ✔ Import contacts from a spreadsheet.
- ✔ Automatic Ban-List control (reply STOP to opt out).

PRICES

We will most probably beat any written quotation. Contact us for special rates.
See our website for Terms and Conditions.

Choose a payment option that suits your needs: the subscription option allows you to pay for your SMS usage in arrears with debit order and the pre-paid option allows you to purchase SMS credits as and when you need them (much like you would buy airtime for your pre-paid mobile device). SMS credits never expire. *All prices excl. VAT.*

Price Plan	SUBSCRIPTION	PRE-PAID
